

MC10+[®]

Rapide

MC10+[®] Underfloor and Central Heating System BIOCIDE

High performance *MC10+ RAPIDE* prevents the formation and growth of bacterial contamination, algae and micro-organisms in underfloor and central heating systems. *MC10+ RAPIDE* provides faster, stronger and easier dosing; allowing a 125 litre system to be dosed in just 20 seconds.

- High performance dual biocide and fungicide
- Prevents bacterial contamination and algae
- Concentrated formula, treats 125 litres in 20 seconds
- Designed for all heating systems including underfloor
- Compatible with all ADEY *MC* products
- Ensures efficient system operation

Physical and chemical properties

Appearance:	Liquid
Colour:	Pale green
Odour:	Slight
Solubility:	Miscible
pH Value:	3 - 4
Relative Density:	1.073

Product uses

Prevention of the formation of bacterial contamination, algae and micro-organisms within all heating and cooling systems including underfloor. Compatible with all rubbers and other non-metallic components.

How to use

300ml of *MC10+ RAPIDE* will treat up to 125 litres or 100m² of underfloor heating. Introduce *MC10+ RAPIDE* to the system using the adaptor provided via the filling loop, radiator or manifold, or via a *MagnaClean*[®] filter air vent.

For previously untreated or heavily contaminated systems, clean and flush thoroughly using ADEY's *MC3+* Cleaner. Refill the system, adding *MC10+ RAPIDE*, in conjunction with *MC1+* Protector to prevent corrosion and scale.

We recommend topping up levels of *MC10+ RAPIDE* on an annual basis.

N.B. NOT for use in single feed indirect cylinders.

Application

MC10+ RAPIDE is suitable for all sealed and open vented heating systems. *MC10+ RAPIDE* is not suitable for use in single feed indirect "primatic" cylinders where potable water treatment is required.

Packaging, handling and storage

Available in 300ml canister.

Store in a cool, well ventilated area.

Warning: May produce an allergic reaction. Causes serious eye irritation. Harmful to aquatic life with long lasting effects. EUH208: Contains mixture of 5-chloro-2-methyl-2h-isothiazol-3-one and 2-methyl-2hisothiazol-3-one.

Keep out of reach of children. Wash contaminated skin thoroughly after handling.

Wear protective gloves/protective clothing/eye protection/face protection. Avoid release to the environment. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact

lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Dispose of contents/container to according to local/national regulations.

Warning: Pressurised container: May burst if heated. Protect from sunlight and do not expose to temperature exceeding 50°C. Do not pierce or burn, even after use. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep out of reach of children. Use only as directed.
